DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Applicant previously submitted a COPY of an initialed Form 1449, requesting the record clearly reflect that the Olesen et al. article ("Experimental Headache Models") had been considered, since the previous examiner had apparently simultaneously initialed and lined through the citation. The examiner sent out a Form 892 citing the reference, thus leaving no doubt it had been considered.

The purpose of this communication is to make clear that the remaining references on that 1449 COPY were duplicate citations since they had been previously considered. The COPY has also been annotated to indicate that the Olesen et al. article was a duplicate as well, insofar as it was cited on the aforementioned 892.
